Highway	Pipe/Power Line	Stream/Shoal
Secondary Road	Ridge/Physical Feature	Intermittent Stream
Deep Trail/Wharf/Ferry	Property/Fence Line	River / Lake
Railroad	Nonvisible Boundary	Glacier

Modifiable Inset Out Area

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

<sup>1</sup> A " " following a place name indicates that the place is coterminous with a MCD. A " " indicates that the place is also a full MCD, the full MCD name is not shown.

<sup>2</sup> This map shows tribal census tract boundaries and numbers within the subject entity, nontribal census tract boundaries are shown outside of the subject entity but without numbers. A tribal census tract is a type of census tract defined within a federally recognized American Indian reservation or off-reservation trust land for the purpose of providing data based on an American Indian hierarchy rather than by state and county. Where reservations or off-reservation trust lands cross state or county boundaries, the same tribal census tract number may be assigned on both sides of the boundary, and, if so, constitutes a single tribal census tract entity.

<sup>3</sup> A " " following a block number indicates that the block number is repeated elsewhere in the block.
